

AutoFlush® Sidemount

Touch-Free Flushing System

technical concepts
Innovative Hygiene Solutions

The AutoFlush® Sidemount is the perfect solution for automating fixtures in high traffic washrooms.

Retrofit Automatic Flushing Unit

- No need to replace your current investment of flush valves or move plumbing rough-in to accommodate ADA compliance.
- Installing battery operated automatic flushing device onto your existing flush valves makes economic sense.
- Installation of the AutoFlush Unit is quick and simple
- No need to turn the water off.
- The AutoFlush is the easiest and most cost effective way to gain the benefits of an automatic flushing system
- No more unflushed fixtures, foul odors, and valve damage from handle kicking.

New Improved Design

- New angled sensor allows for user detection even with the toilet seat in the raised position.

Smart Technology

- The AutoFlush® infrared Object Lock Technology ensures dependable activation flushing like no other system today.
- The use of cam gears instead of solenoid valves provides dependable trouble-free operation.

Easy 2 Minute Retrofit Installation

No water shut off required. Simply remove your existing flush handle with the supplied wrench, replace with your new AutoFlush® unit, and tighten the collar nut with the same wrench. Insert supplied batteries, and you have just converted your washroom to a higher standard in hygiene.

Install Step 1

Remove Handle

Install Step 2

Install AutoFlush®

3mm / 1/8" Allen wrench - Included.

AutoFlush® Sidemount Specifications

Trap Seal Protection (24hr flush):

Ensures fixtures are flushed at least once every 24 hours. This feature prevents sewer gases escaping through open trap. This feature can be turned off by placing switch #1 in the down position.

Valve Type:

Retrofits to all Sloan Royal and Zurn flush valve systems, or Coyne and Delany flushboy valves. Adaptable for both left and right hand supply. Works with toilets & urinals.

Flush Volume:

Operates with any flush volume cycle.

Power Supply:

4 C- Cell alkaline batteries - Included! 100,000 flushes/3+ years battery life under normal operation.

Sensor Type:

Infrared convergence type object lock detection. Adjustable range: 8" to 48." (32" factory set)

User In View L.E.D.:

Green light flashes 3 times when user is detected for 5 seconds.

Battery Replacement L.E.D.:

Yellow light flashes when batteries are low.

Battery Replacement Tone:

Optional audio tone reinforces yellow LED (change batteries). This feature can be turned off by placing switch #2 in the down position.

Installation Time

Easy 2 minute installation. Water does not need to be shut off.

Courtesy Manual Flush:

Toilet model only.

Operation:

A) User Approaches

B) Object Lock Infrared Senses User

C) Fixture is Flushed as User Walks Away

Compliance:

Designed to meet A.D.A. requirements.

Environmental Highlights:

- Industry leading battery life
- Bulk Pack reduces packaging waste

Warranty:

3 years against defects in parts and workmanship. Successfully tested for over 1 million flushes!

ADA COMPLIANT
