

**No Lead Dual Station Drinking Fountain
Wall Mount-Fully Exposed Barrier-Free Access
Model EDFP-220-RC (White Granite)**

SPECIFICATIONS

GENERAL

With a contemporary look and smooth, rounded lines, this wall mounted drinking fountain is constructed of a premium composite, polyester material. Available in White Granite.

Contoured basin minimizes splashing and has exclusive Charcoal Gray colored Flexi-Guard® safety bubblebers to prevent accidental mouth injuries. Easy to operate, fully functional chrome plated push buttons are vandal-resistant. Bottom cover plate included. Patented* valve and in-line flow regulator provides stream from 20 psi min. to 105 psi max. water supply.

THIS DRINKING FOUNTAIN COMPLIES WITH THE REQUIREMENTS OF A.D.A. (AMERICANS WITH DISABILITIES ACT) WHEN PROPERLY INSTALLED.

NO LEAD DESIGN

THIS DRINKING FOUNTAIN COMPLIES WITH THE LEAD-FREE DEFINITION IN THE SAFE DRINKING WATER ACT OF 1986 AND LEAD CONTAMINATION CONTROL ACT OF 1988.

Elkay Drinking Fountains are manufactured with a waterway system utilizing copper components and completely lead-free material. These waterways have no lead because all leaded materials, such as leaded brass, have been removed.

 This drinking fountain is Classified by Underwriters Laboratories Inc. in accordance with **ANSI/NSF61, Section 9-1997b.**

CONSTRUCTION

EDFP-220-RC furnished complete with Flexi-Guard® bubblebers, fully assembled front push buttons, patented* valve and in-line flow regulators (20 psi min. and 105 psi max.), and LK-464 drain and trap assembly. Bottom cover plate fastened with vandal-resistant screws.

Model EDFP-220-RC

Care and Maintenance of Elkay Composite Fountains

The premium composite fountain provides an extremely durable, nonporous surface which resists staining. Care is very simple. Routine cleaning with a soft sponge or cloth, or with water or non-abrasive aerosol foam cleaner, is all that is normally needed to give many years of trouble free service. Cleaners left standing on the fountain surface can dull the surface finish. Be certain to rinse all cleaning agents completely and polish with a soft cloth. Harsh abrasive cleaners are not required and should not be used.

Mild abrasives such as liquid automotive cleaning compound or baking soda paste will remove simple scratches and stains. Cigarette burns can normally be removed without noticeable effect. Deeper scratches or gouges can be corrected with fine grit sandpaper (240 grit then 400 grit) or a green scotchbrite pad.

To maintain or regain luster and make cleaning easier, periodic applications of automobile wax or like products will keep the finish looking like new.

In keeping with our policy of continuing product improvement, Elkay reserves the right to change product specifications without notice.
