ENGINEERING SPECIFICATION: ZURN ZTS6200-WS1 Sensor Operated Flush Valve for 1.6 GPF Water Closets. Exposed chrome plated brass electronic sensor flush valve with mechanical override push button for alternative operations. The valve is powered by a 9VDC battery with expected 4 year battery life on 50,000 activations per year. Sensor range is adjustable either manually or by use of a remote control. Other sensor features include low battery indicator light and 24 hour courtesy flush (owner options). The flush valve incorporates a filtered bypass, high back pressure vacuum breaker, adjustable tailpiece, spud coupling and flange for top spud connection. Control stop has internal siphon-guard protection, vandal resistant stop cap, sweat solder kit, and cast wall flange with set screw. All internal and external gaskets and seals are chloramine resistant.
